VIRTUAL CONTINGENCY, CHANGE OF VENUE/DATE, CANCELLATION OF EVENT POLICY

It is understood that EMC provides continuous promotion of the event with significant exposure to sponsors via marketing emails, online agenda, website recognition and social media from the early launch of the 2027 event marketing campaign, throughout the event and post event and that there is value to this promotion.

Should EMC 2027 move to a virtual only format – While all Sponsors will be provided virtual benefits that may include increased registrations and added exposure as determined by their selected level, all those who choose to stay at the same level with full support towards the continued success of EMC will be provided extra benefits including the opportunity to participate in a virtual package for all attendees should that be implemented.

For those who opt not to stay with full support IF moved to virtual only, these options would be available:

Sponsors at blue and above would have the option to downgrade one sponsor level at regular pricing with 80% of the current level less regular price of downgraded level refunded or applied to another offering or to EMC 2028.

Exhibits (non-sponsors) and sponsors of in-person only social events and selections, such as coffee and hotel key sleeves, signs and mixers would be given the option to upgrade to a virtual engagement package, apply it towards another opportunity EMC offers or receive an 80% refund or credit towards EMC 2027 less any direct expenses EMC may have already incurred for a specific item or event. Wi-Fi sponsor would become a live stream sponsor. Green sponsor, founder awards and scholarship fund sponsors would all be upgraded to virtual experience.

Should EMC move to another location or date, this would not be a cancellation, and all selections would remain in place.

We are sincerely grateful to all our sponsors who help to make this event a success in continuing the dialogue and education critical to this industry!
